

RP24G etching press

The RP24G is a geared drive press suitable for schools, printmaking groups and private artists wanting intaglio and relief printing capability.

- Robust construction
- Safety features
- Geared drive
- 5 year warranty
- Low maintenance
- Bench or cabinet mount

The RP24/620g is a geared press. The generous diameter of the rimmed handwheel provides a smooth and powerful delivery of rotation, ensuring a quality print. The gearing enables printing of etchings in the popular 56x76 paper format. The space above the roller is completely clear to allow felts to flip over easily.

Maintenance is near zero; no adjustments, no greasing; just a little oil occasionally.

Our standard 5 year warranty applies.

Low cost options include a cabinet base and a starter kit of 3 basic felts

Technical:

- Robust and rigid laser cut frame unitary welded construction
- Upper roller 140 mm diameter
- Lower roller 114mm diameter
- Sealed ball bearings
- Laminate bedplate with high compressive strength 624mm x 1100mm
- Professional hand wheel [890mm diameter with 32mm diameter rim for solid grip]
- Geared drive ratio 3.75:1 to lower roller by handwheel 890mm diameter
- Steel cabinet base has a convenient storage shelf & provision for locking wheel
- Packs flat for economical shipping and easy assembly
- Felts kit is industrial grade wool comprises 1 x A and 2 x B grade 3.2mm
- Semi-rigid overlay sheet 614mm x 1100mm x 2mm is polycarbonate
- Standard tee-bar screws have stainless steel bars and black knobs
- Mass of main lift 65kg

Safety:

- There are no hidden finger trapping points
- Cautionary stickers are placed near the obvious top roller/bedplate area
- Low mass bedplate is supported on low friction slides without wheels
- Bed stops and anti-lift pins prevent bedplate accidentally exiting the press
- The fully enclosed covers at sides and lower roller exclude fingers
- The screw lock nuts prevent interference with setting
- Provision for locking the handwheel (only with cabinet)

Transport:

- The unpacked press easily fits in a medium size station wagon with bedplate and handwheel separate
- We can arrange transport to any location via P&S; we normally deliver the press to the nearest major transport depot and our client arranges further transport; but we can deliver to your door if required
- Installation and commissioning may be available in some locations.
